Dear Miss Loving,

I guess you have received my letter by this time on being medically discharged, so I won't go into that. I will let you in on my plans, of course, when & if I formulate them. At the moment, I must get completely well. Also, I may move closer to home.

Today I would like to ask you quite a lot of advice and questions. I have heard a little about correspondence courses taken in which college credit is given to prepare fellers for the post war era. I do not know any details, however, and was wondering what you knew about them. After all, now that I am not going to get my diploma from the U.S.M.M.A., I can't get around and moon too long about it, you know. Here are a couple of questions flashing on my brain waves at the moment:

- (1) Does credits gained this way give you the same credits as if you were at the college itself? (Are they genuine (recognized) for diploma, etc)
- (2) What colleges give them and does colleges like G.W.U. or Uni. of Va. give them?
- (3) My particular fields of interest are medicine, law, & marine architecture in respective order. Do these fields apply in the correspondence line?
- (4) Finances, etc, etc, etc.?
- (5) Channels of operation to find out more on this particular subject?

Now of course, I realize that you probably might not know about this subject, but then I figure that if anybody knows, you will, or Mr. Richmond might. This is a brain wave that hit me an hour ago.

Was very glad to hear the news in the last Post Script. That was a tough break for Jake, though, wasn't it?

Well, Miss Loving, I've ran out of words except today, Mother's Day, is a very lovely day, it is very pretty here, and I'm doing ok.

As ever,

Claude
