My Dear Miss Loving,

Well they finally shipped me out of Berkeley, Friday evening & I arrived here at El Paso Saturday morning. This is sure a sunny place to see. El Paso is principally made up Mexican villas. Its something you don't see in the East. This place is right on the border of Mexico & you can go into Mexico as often as you wish.

This hospital is an attachment to Fort Bliss & is a really beautiful place to see. [illegible] hospital grounds is just like a dream garden. We even got a huge swimming pool for us to use. They boast around here that they have the completest tropical garden in the Southwest.

We have to do right much studying here. I sure forgot a lot in 2 or 3 years. I never knew how much until now. Will I'm not much of a letter writer so will close for now.

Will write soon.

Sincerely,

Bob Jarman
