Dear Miss Loving,

Received your letter a day or two ago & it was swell to hear from you again. There's nothing like a nice letter when you are far away from home. I guess by now all the exams are through with & you have settled down with a new class. I hope none of them are having as hard a time as I did learning some of that stuff. But right now, I'd do anything to be back there now. I guess you'll laugh at that statement because I always said "I'll never wish the day when I'll want to go to school. Things here are just about the same. All work & no play. But such as life. Its getting to be pretty nice here now as far as the weather is concerned. No rain for over a month, but it hasn't been hot. So its been pretty comfortable thus far. Well I'd better close for this time. Write when you can.

Love,

Bob
