Dear Miss Loving,

I really am sorry I didn't see you when I came up to W.&L. I was up there several times but something always happened so that I couldn't make it. I enjoyed a couple of basketball games up there and visited the new vocational section of the school.

There are very few students and teachers at W&L this year, that I know, it was hard to find something to do for very long while I was up there.

I want to thank you for the copy of the Postscript and for dedicating that issue to me. I enjoyed all I have seen.

I will write again real soon and give you any news that I can.

Thanks,

Larry
